

Modular Pickup Unit

The Modular Pickup Unit is the most flexible and profitable unit in its price range. You choose the components that you want and we create an extremely productive sprayer tailored to your needs. With up to three tanks, an Njekt Soil Injection System option and good storage, this unit is designed to make \$1000's per day.

All operations are on curbside, including fill.

▲
275G or 330G Nurse, (2) 35G or 56G mix/application tanks.

▲
Njekt Injection System in one side box.

▲
No Climbing! - Easy reach to fill custom application tanks and all other operations.
